RESEARCH REFERENCE / 01

Aviation is the live reference.

The official root redirects to /aviation. These are real public-site captures, not proposed product screens or a recreated design.

DESKTOP · 1366 × 900 · www.rebolt.ai/aviation

MOBILE · 390 × 844

Read the visual correctly. Uppercase white headline. Helvetica Now Display. Layered warm charcoal with actual aircraft outline artwork. A square amber CTA with a lower hazard stripe. The future concept is a GTM workbench, not an aircraft operations product.

Observed tokens, not invented rules.

Values come from source CSS, computed styles and real rendered-font inspection. This sheet is documentation; its labels use Arial, not a substitute brand-font specimen.

#090B11 · section	#242422 · backing	#202322 · stripe	#FFAF00 · action

Type & layout

80 / 88	Desktop H1: 80px / 88px. Requested weight 450. −4px tracking. Actual face: Helvetica Now Display Medium.
48 / 52.8	Mobile H1: 48px / 52.8px. −2.4px tracking. 24px horizontal inset; desktop inset 80px.
24 / 56	Heading-to-subtitle gap 24px. Desktop column gap 56px. Form gap 8px. Header 48px high.
36 / 36	CTA label: 36px / 36px, weight 500. 16px padding. Zero-radius corners. Mobile button 327 × 112px.

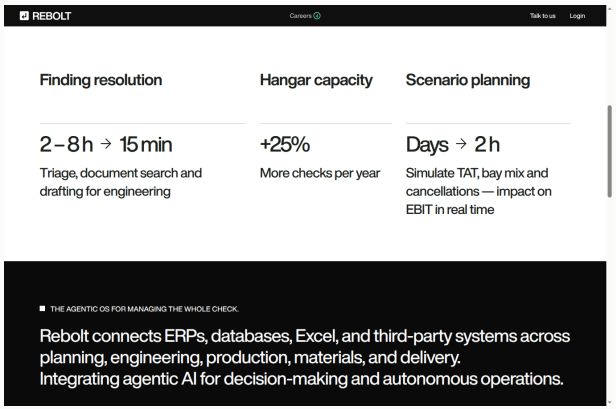

Commercial font license is unresolved for this concept. Source declarations and screenshots are preserved; font binaries are not redistributed.

Stripe & motion

SOURCE-CSS PATTERN SWATCH · NOT AN INTERACTIVE BUTTON

135° repeating gradient; 9px clear / 9px charcoal. Bottom 40% only. CTA transition 100ms, cubic-bezier(.4,0,.2,1). No stripe animation.

Explore arrow: 2.4s ease-in-out, 0→8→0px vertical bounce. Reduced-motion emulation resolves it to no animation.

Real lower-page capture. Outcome figures are Rebolt marketing claims, not independently verified results or prototype performance.

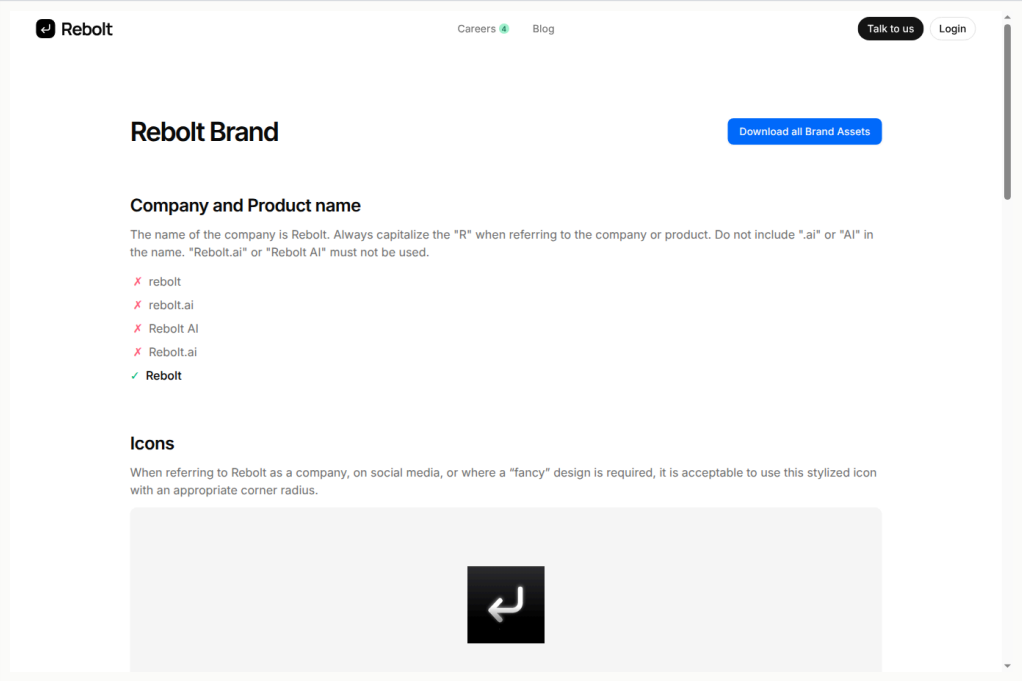

Generic CompanyOS material stays separate.

Working label only: no separate current public CompanyOS homepage was confirmed. Official brand assets and generic pitch material use a distinct light editorial system.

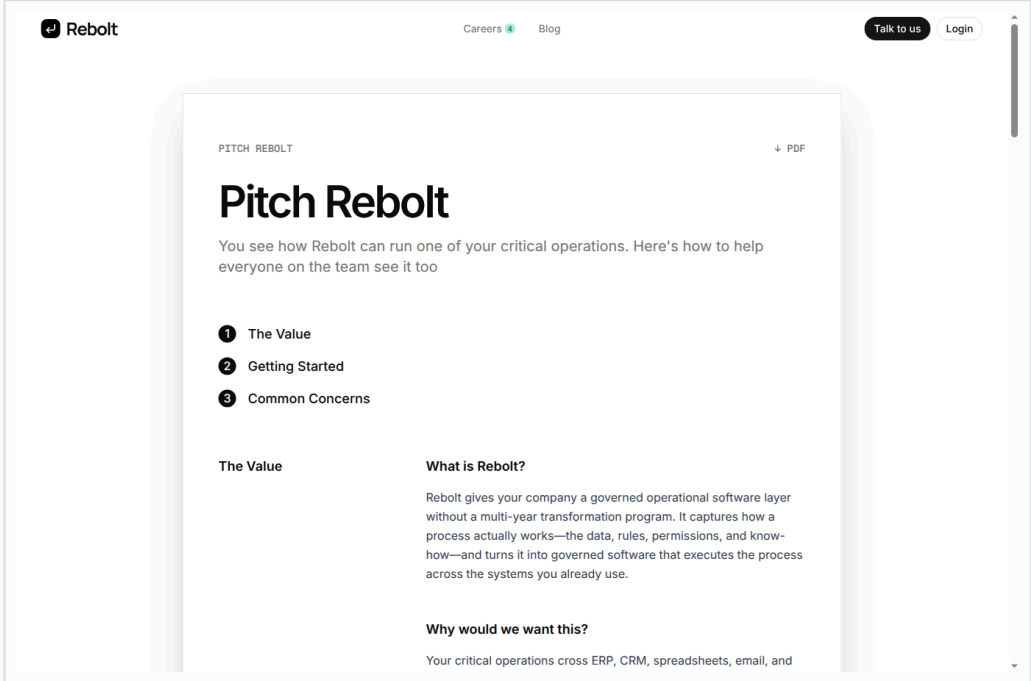

Rebolt

Rebolt

OFFICIAL BRAND PAGE

OFFICIAL PITCH ARTICLE — NOT A HOMEPAGE

#006AFE · Blue

#0D0E10 · Pitch Black

#FFFFFF · Pure White

Official typography: Inter primary, Geist Mono monospaced. Company name: **Rebolt**, not “Rebolt AI” or “Rebolt.ai”. Literal SVG assets above retain their source geometry.

Introducing Rebolt describes an operations platform and governed execution across systems. These are published claims, not independently validated capability, onboarding or feature-gap evidence.

First Value Engine: research, not product UI.

A proposed GTM experiment workbench for acquisition, activation, onboarding/billing and growth experiments. All scope and milestone definitions remain provisional.

PROPOSED SCOPE

Make the next experiment defensible.

- Validate synthetic signup/event CSVs, with explicit row-level issues.
- Declare first-value milestones, windows and cohort eligibility.
- Preserve unknown segments and incomplete outcomes.
- Show rationale behind experiment ranking.
- Construct UTM strings and export an activation plan.

No real aircraft work, payments, integrations, private data, campaign launches or unsupported claims about missing Rebolt features.

PROPOSED METRIC SAFEGUARD

Unknown outcomes are not failures.

N / D / U

N = confirmed value. D = eligible mature units.
U = outcomes unknown due to incomplete evidence.

```
Bounds: N/D → (N+U)/D
Coverage: (D−U)/D
```

Synthetic arithmetic illustration:
4 confirmed / 10 eligible / 2 unknown → 40–60% bounds; 80% coverage.

Not a Rebolt benchmark, real cohort, application result or tested uplift.

Stop at the research gate.

Commit brand evidence and the brief. Await scoped product-use notes before UI implementation. Later delivery may include PM docs, tests with actual results, free Cloudflare deployment and a voiced live-browser demonstration. None is delivered at this stage.

Research reference only. Third-party logos, text, website artwork and screenshots remain the property of their rights holders. No endorsement or blanket reuse license is implied.
